

Pediatric Nutrition and Supplement Program (PNSP) July, 2019 Annual School Personnel Training

Training workshops were held for School Personnel in A Lưới, Quảng Trị, Huế and An Giang. Topics included essential nutrition, basic hygiene and common pediatric illnesses. Step-by-step NEC (nutrition education via cooking) instruction with a plant-based cooking demonstration were held in A Lưới, Quảng Trị and Huế. Additionally, there was a presentation on the malnutrition, stunting, and anemia rates of the 2018-2019 school year PNSP program as well as a discussion of the strategies to improve the Program.

The occasion also featured the presentation of GDHF's Certificates of Appreciation and recognition of the school staff.

- I Training in **A Lưới** was a one-day event organized on **July 19th** in the conference room of the District Education Department. There were **76 school personnel** from all four participating schools who attended the training.

II Training in **Quảng Trị** was a one-day event organized on **July 21st** in the conference chamber of Saigon-Đông Hà hotel. There were **111 school personnel** from all six participating schools who attended the training.

III Training in **Huế** was a one-day event organized **on July 26th** in the conference room of Huế University. There were **54 school personnel** from six schools who attended the training. Five of those six were new to our PNSP and this training was to prepare for their first-time participation in the next school year.

The occasion also featured the presentation of GDHF's Certificate of Appreciation and recognition to the staff of Hoa NghiêM pre-school which was the only on-going PNSP participating school in the training.

IV Training in **An Giang** was a one-day event organized on **July 28th** in a classroom of **Vĩnh Nhuận** pre-school. The training was attended by all **17 school personnel**.
